**ESCAPE Fire & Safety Services, Inc.**

February 1, 2026

To: Michigan Licensed Childcare Providers

The State of Michigan Childcare Licensing has announced new requirements which state all childcare CPR and First Aid certificates shall include the word "pediatric" instead of child and infant. ESCAPE and the Emergency Care and Safety Institute courses we teach will include the word "pediatric" for CPR and First Aid certificates issued after February, 2026.

For those who have completed training before this change was made when issuing certificates, this letter will verify all practical skills taught met the pediatric skills previously titled child and infant.

Please contact me should you have any questions.

Sincerely,

Michael O. McLeieer, APIO, CFSI  
President  
ESCAPE Fire & Safety Services, Inc.
